ABOUT ME

Software Engineer | React, Next.js & Vue.js (TypeScript) | Responsive UI (Tailwind/CSS/SASS)

Frontend Software Engineer with 5 years of experience in React and Next.js (TypeScript, JavaScript). Skilled at building responsive, accessible interfaces using CSS, Sass, and Tailwind CSS and continually adopt modern tools to improve performance and delivery.

WORK EXPERIENCE

1 NOV 2022 - 4 DEC 2025 | DHAKA, BANGLADESH

FRONTEND SOFTWARE ENGINEER CROWDS REACH LIMITED

- Developed and maintained responsive web interfaces with HTML5, CSS3, and JavaScript, ensuring cross-browser compatibility and mobile-first design.
- Utilized Next.js for server-side rendering (SSR), static site generation (SSG), and route-based code splitting to enhance performance and SEO.
- Integrated RESTful APIs and handled asynchronous data fetching using fetch and Axios.
- Collaborated closely with backend developers, UI/UX designers, and project managers to deliver high-quality, scalable frontend solutions.
- Ensured code quality and maintainability by following best practices, using tools like ESLint, Prettier, and Git for version control.

1 JAN 2020 - 1 SEP 2022 (REMOTE) | DHAKA, BANGLADESH

JR. FRONTEND SOFTWARE ENGINEER KAJKAM INITIATIVE

- Written clean, maintainable, and well-documented code, following project coding standards and best practices.
- Assist in developing responsive and interactive web user interfaces using HTML, CSS, and JavaScript.
- Actively participated in regular code reviews and sprint meetings to improve coding skills and receive feedback.
- Conduct basic debugging, testing, and performance tuning to identify and fix UI-related issues.
- Stay updated with the latest frontend technologies and contribute to team discussions and learning sessions.
- Work with version control systems like Git to manage and track code changes collaboratively.

PERSONAL - PROJECT | SCHMALLINGENBERG, GERMANY

FOUNDER & DEVELOPER EURO BD SOLUTIONS

- Owning and developing eurobdsolution.com, a personal project aimed at building a digital bridge between Europe and Bangladesh, providing information and solutions across education, import-export, garments, services, and legal support.
- Designing KPI dashboards and performance tracking tools to support cross-border collaboration in the garments and service industries.
- Implemented data visualization solutions in Google Looker Studio with automated Target vs. Actual reporting, including red/green conditional formatting for clarity.
- Managing full lifecycle: domain ownership, data modeling, dashboard design, and solution development.
